

CNC Machinists – Milling Vacancies

We are a medical implant and materials manufacturer providing components to customers worldwide. Our main focus is to supply products to stringent customer and international specifications.

In order to support continued business growth we have opportunities for CNC Millers to join our Medical Machining Department.

We are looking for experienced Millers with the relevant engineering qualifications to assist in programming, setting and operating Heidenhein and Hurco Winmax milling machine operating systems.

If you are interested in being considered for one of these roles please forward your CV and a response to the following questions to recruitment@orthoplastics.com

1. How many years' experience do you have programming, Heidenhein and Hurco Winmax milling machine operating systems?
2. How many years' experience do you have setting and operating milling machines using Heidenhein and Hurco Winmax operating systems?
3. How many years' experience do you have setting and operating 3 and 5 axis milling machines?
4. Do you have experience of programming, operating and running 5 axis milling machines?
5. If you have not used Heidenhein or Hurco Winmax operating systems please advise which operating systems you have used?
6. How many years' if any, have you experience of using Bridgeport, DMG and Hurco Milling Machines? If not, which others?
7. Which raw materials have you experience of machining?
8. Please advise if any, how many years' experience you have using AutoCAD?
9. Do you have any Cad-Cam experience, and if so ,on which software package
10. Have you served a recognised apprenticeship?
11. Are you familiar with, and fully understand engineering drawings and tolerance requirements?
12. Shift Preference:
Permanent Early (06.00 to 14.15 Monday to Thursday, 06.00 to 12.00 Friday including breaks)
or
Permanent Back (14.00 to 22.30 Monday to Thursday, 11.45 to 16.45 Friday including breaks)
13. Your salary expectations (hourly rate)

We look forward to hearing from you.
