

## CNC Machinists – Turning Vacancies

We are a medical implant and materials manufacturer providing components to customers worldwide. Our main focus is to supply products to stringent customer and international specifications.

In order to support continued business growth we have opportunities for CNC Turners to join our Medical Machining Department.

We are looking for experienced Turners with the relevant engineering qualifications to assist in the programming, setting and operating Fanuc and Mazatrol operating systems. Our requirement is for applicants with experience of programming using 'C' axis and driven tools.

If you are interested in being considered for one of these roles please forward your CV and a response to the following questions to [recruitment@orthoplastics.com](mailto:recruitment@orthoplastics.com)

1. How many years' experience you have programming, setting and operating Fanuc and Mazatrol operating systems?
2. Do you have experience of programming using 'C' axis and driven tools?
3. If you have not used Fanuc or Mazatrol operating systems please advise which operating systems you have used?
4. How many years' if any, have you experience of using Mazak and Doosan lathes? If not, which others?
5. Which raw materials have you experience of machining?
6. Please advise if any, how many years' experience you have using Autocad?
7. Have you served a recognised apprenticeship?
8. Are you familiar with, and fully understand engineering drawings and tolerance requirements ?
9. Shift Preference:  
Permanent Early (06.00 to 14.15 Monday to Thursday, 06.00 to 12.00 Friday including breaks)  
or  
Permanent Back (14.00 to 22.30 Monday to Thursday, 11.45 to 16.45 Friday including breaks)
10. Your salary expectations (hourly rate)

We look forward to hearing from you.

**Direct Applicants Only Please**
